### **Mission & Values**

Our Mission – Creating opportunities and solutions with quality products and exceptional people

Our Values – Profitability the right way... Integrity, Accountability, Excellence

### **Primary Job Function:**

This individual will have basic knowledge of heavy equipment repair up to possessing experienced mechanic abilities. This individual will perform basic garage related duties, including diagnose, repair and adjust all types of heavy equipment and off-road equipment, heavy equipment/off road refrigeration equipment, and gas or diesel engines. Perform tire maintenance and replacement, lubrication and servicing, and other garage-related duties.

**Please see below a brief summary job description.**

### **Essential Requirements:**

- Wear required safety equipment including but not limited to hardhats, safety glasses, safety harness, ear plugs, dust masks and gloves
- Remain stationary for considerable amounts of time in various positions or cramped spaces
- Repetitious arm, hand and leg motion
- Ascend and descend stairs and ladders
- Full motion in arms and hands
- Maneuver above and under equipment
- Perform bending, kneeling and twisting
- Able to lift 100 pounds
- Required and predictable attendance

### **Knowledge, Skills and Abilities:**

- Some experience preferred; demonstration of basic mechanical skills or education may substitute for experience on an entry level basis
- Understand and follow company policies, procedures, and safety guidelines
- Able to communicate clearly verbally and in writing for record keeping and documentation
- Maintain a valid driver license
- Diagnose, repair and adjust all types of heavy equipment and off-road equipment, heavy equipment/off road refrigeration equipment and gas or diesel engines
- Repair or replace frames and suspensions
- Able to make welding and cutting repairs to maintain equipment
- Ability to work weekends, nights, call outs, overtime and holidays

### **Duties and Responsibilities:**

- Diagnose, repair and adjust all types of heavy equipment and off-road equipment, heavy equipment/off road refrigeration equipment and gas or diesel engines
- Work on gas and diesel engines, accessories, hydraulic, electrical systems, and power transmissions
- Diagnose equipment malfunctions and take corrective action to eliminate costly repairs
- Perform tire maintenance or replacement on heavy equipment and off-road equipment
- Lubricate and service heavy equipment and off-road equipment when necessary
- Furnish your own hand tools
