

Position Opening

Position:	Project Engineer	Location:	Scottsdale, AZ
Opening Date:	Jan 16, 2023	Grade:	10 Exempt
Closing Date:	Until Filled	Wage:	DOE

Mission & Values

Our Mission – Creating opportunities and solutions with quality products and exceptional people

Our Values – Profitability the right way... Integrity, Accountability, Excellence

Primary Job Function:

Manage all aspects of Land, Reclamation, and various site Engineering Projects. This position will provide critical functions to internal and external relationships and development related to SRMG operations. Specific to Land Use, this position will manage all permitting, zoning, leasing, and special/conditional use designations and implementation across the SRMG processing and production footprint. This position will also direct all reclamation activities both administrative and operational in coordination with the operation and environmental departments. The Project Engineer will be responsible for interacting with local, state and federal authorities and maintaining a high profile in all aspects of community. The Project Engineer will provide strong leadership skills consistent with SRMG core values, highlighting particular attention to the company Mission objectives. This position reports to the Director of Land and Reclamation.

Please see below a brief summary job description.

Essential Requirements:

- Wear required safety equipment including but not limited to hardhats, safety glasses, safety harness, ear plugs, dust masks and gloves
- Travel to assigned locations as required
- Maintain a valid driver's license and acceptable driving record

Knowledge, Skills and Abilities:

- Requires a Bachelor's Degree in Mining/Engineering and/or a minimum of five years of experience in Project/Operational management.
- Expertise and knowledge in engineering concepts.
- Excellent oral and written communication, presentation and organizational skills.
- Proficient use of computer programs such as Microsoft, Word, Excel, PowerPoint, Outlook.

Duties and Responsibilities:

- Ensure a safe work environment for all employees and any other interacting plant personnel, vendors or subcontractors
- Maintain a high profile in all aspects of community/company relations to ensure that the facilities are a good corporate neighbor.
- Oversee safety and environmental activities of the facilities to ensure compliance with all appropriate regulatory requirements.
- Develop and maintain operating and capital budgets.
- Represent SRMG at industry and regulatory forums, workshops, and organizational committees.
- Provide organizational leadership, team building, collaborative relationships, accountability and problem solving.
- Ensures project/departmental goals are met and adhering to company policies.
- Ability to convey vision and strategy effectively with the ability to influence and drive results.
- Communicate and negotiate effectively with customers, owners, governmental agencies and environmental regulatory agencies.
- Create effective project execution strategies that align with SRMG and our owners values.
- Manage all land-uses, permitting and zoning/conditional uses and compliances on all properties.
- Perform any other duties incidental to this classification
