Phoenix Cement® – Phoenix Plastic Cement

Product Information Statement for LEED® New Construction (NC) 2.2 Credit Documentation

Project Name -Location: All Commercial, Industrial and Residential Projects – Southwest Region

Phoenix Cement® Phoenix Plastic Cement is manufactured specifically for the plaster/stucco industry and meets all the chemical and physical requirements of ASTM C1328 for stucco cement and ASTM C91 for Type S masonry cement.

Salt River Materials Group (SRMG) certifies the following information for Phoenix Cement® Phoenix Plastic Cement.

Regional Materials

98% of Phoenix Cement® Phoenix Plastic Cement is extracted and manufactured at the Clarkdale Facility, located in at 3000 W. Cement Plant Road, Clarkdale, AZ, 86324 and qualifies for LEED® Credit 5.1 and 5.2 Local and Regional Materials if located within 500 miles of the project site.

Based on the above information, SRMG certifies that Phoenix Cement® Phoenix Plastic Cement will contribute to the following LEED® NC Credits:

MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally

MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally

A handwritten signature in blue ink, appearing to read 'Scott Palmer', is written over a light blue circular stamp.
