Phoenix Cement® – Rapid Power Type III (LA)

Product Information Statement for LEED® New Construction (NC) 2.2 Credit Documentation

Project Name -Location: All Commercial, Industrial and Residential Projects – Southwest Region

Phoenix Cement® Rapid Power Type III (LA) meets all chemical and physical requirements of the current ASTM Specification C 150 for Type III Low Alkali Portland Cement and C 1157 HE, High Early Strength cement. Rapid Power Type III (LA) is a high-early strength cement suitable for use in most general construction applications.

Regional Materials

98% of Phoenix Cement® Rapid Power Type III (LA) is extracted and manufactured at the Clarkdale Facility, located in at 3000 W. Cement Plant Road, Clarkdale, AZ, 86324 and qualifies for LEED® Credit 5.1 and 5.2 Local and Regional Materials if located within 500 miles of the project site.

Based on the above information, SRMG certifies that Phoenix Cement® Rapid Power Type III (LA) will contribute to the following LEED® NC Credits:

MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally

MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally
